(2) An exceptionally high breakage factor has been experienced as a result of storing weapons with lock plates attached.

(3) In the past, these excessive losses through breakage and procurement problems have resulted in a supply shortage of the lock plates.

b. Units should insure that lock plates are retained in unit/organization supply areas and installed in all M16/M16A1 Rifles used in civil disturbance missions prior to troop commitment on the street.

402. DRY BATTERY REQUIREMENTS FOR ANNUAL TRAINING.--a. Units scheduled for March 1977 Annual Training should request dry battery requirements immediately. Units scheduled for later training dates should submit their requirements 60 days prior to scheduled departure.

b. Dry battery requirements for Annual Training should be consolidated and requested from Self-Service Supply activity on a single request. Do not request other type items on the battery request.

c. SSSC will retain the request until a complete issue can be made.
